

INSTALLATION INSTRUCTION

Model	Product	Code
HONDA ADV 350 2021+	Rear Hugger	RH-HADV21

CONTENTS

1. 1 pcs Plastic part
2. 3 pcs M6X15 Round head allen screws

MATERIAL DESCRIPTION

The main product is made of plastic ABS 3mm thick, in glossy black color. The screws are galvanized.

These are the contents you will find inside the product package as well as a card containing the link to download the leaflet with the detailed installation instructions and step-by-step rich photographic material.

Before starting the installation, read the instructions carefully so that you know if you have the right tools and skills, otherwise contact a professional.

The product is for race use only

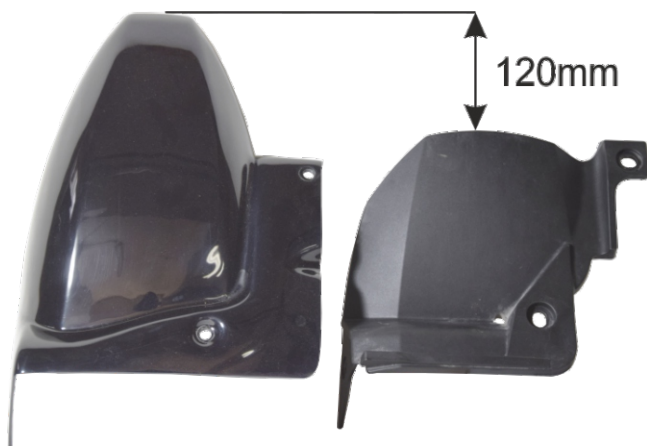

For any further information please do not hesitate to contact us: Tel.: +30 2108075387 Email: info@c-racer.com

Take out the three screws that hold the rear hugger and remove it, as shown in the photo.

Place the new hugger where the previous one was, with the new screws as shown in the photo.

The difference of the new hugger is that it is 120mm longer than the standard and also covers the wheel on the sides, so it gives better protection.

This will be your final result. Have a nice ride.
