

## INSTALLATION INSTRUCTION

Model	Product	Code
HONDA Monkey 125	Fork Guard in Silver & black color	FG-HM-S & FG-HM-B

### CONTENTS

1. 2pcs Aluminum metal guards (A3-CG-HM)
2. 4pcs screws M6X40 allen oval
3. 4pcs adapters  $\Phi 12\Phi 8\Phi 22$ mm

### MATERIAL DESCRIPTION

The product is made of aluminum 3 mm thick and painted in black or silver with electrostatic paint (FG-HM-S silver color & FG-HM-B black color). The screws, nuts, washers and all the rest required for the installation are galvanized in silver color.

These are the contents you will find inside product packaging. Also in the package you will find a card containing the link to download the PDF file with the installation instructions detailed step-by-step with photographic material.

Before starting the installation, read the instructions to have a better idea about the tools you will need and the required skills. Otherwise we suggest to contact a professional.

**The product is for race use only**

Remove the two screws holding the old protector and remove the it from the motorcycle.

Place the adapter between the forks and the fork guard and screw without tightening.

Do the same for the top screw. Continue with the other side and after you have placed all the screws, check if they are aligned, then tighten them all.

This will be your final result. Enjoy your rides!
