Model	Product	code
SUZUKI SV 650 2016+	HEADLIGHT GUARD GRILL & SCREEN	LGSV

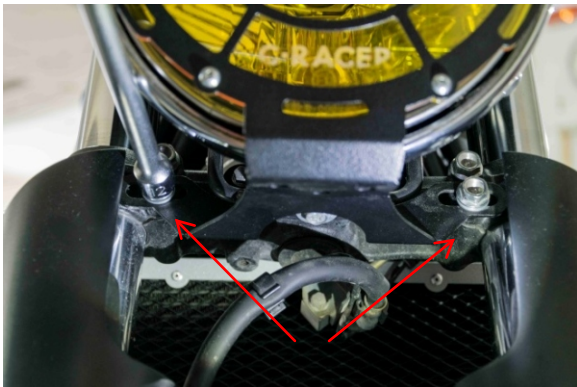

CONTENTS

- 1 X metallic part
- 2 X washers (M8X16)
- 3 X plexiglass pieces (yellow-grey-transparent)
- 6 X screws M4X10
- 4 X nuts M4
- 2 X nuts M4X12
- 2 X plastic screws M4X12
- 2 X foam stick tapes of a 10mm diameter

Choose the screen that you want. Tight the screen, on the first two screws you put the big nuts with the plastic screw. The rest screws use the normal nuts and tight them, the plastic screw don't tight them. Put the foam stick tapes to the base, like you see in the picture.

Undo the two bottom screws of the lower triple clamp, as shown in the photo.

Once you have picked the color you want to install (make sure not to tighten very firmly as the material is plexiglass) place the grill in position and tighten it with the old screws using the washers as well. Align the grill with the headlight and tighten well.

In the end adjust the plastic screw so it could touch the light, so it could not have any vibrations.

The product is for race use only
