INSTRUCTION

Model	Product	Code
Yamaha XSR 700 2016+	Front Number Plates	FSNP-YXSR

You are advised to read the instructions carefully, before you proceed to any changes.
Any modifications on your motorcycle should be performed by specialized personnel,
however the installation process of this product is quite easy if you follow the instructions below.

CONTENTS

- 2 X Plastic covers
- 2 X metal supports (L-FSC-XSR)
- 4 X adaptors 8X12X8
- 4 X screws M5X25 (allen- round head-washers)
- 2 X screws M5X15 (allen- round head-washers)
- 4 X screws M6X15 (allen- round head-washers)
- 4 X safety nuts M6
- 4 X washers 6X18
- 8 X plastic washers 5X12

Unscrew and remove the front side cover.

1

Screw the bracket in place
(there is indication for L & R),
using the screws (M6X15) and the nuts
(M6) with the washer.

2

Place the plastic washer outside the screw
(for color protection in case you have painted it)
as show in the photo.
Do not tighten the screws.

3

Screw in place the front side number plate using the (M5X15) screws.

4

Take one of the adaptors and place it in between your fingers, as you see in the photo. Slide it through behind the plastic cover and hold it in place until you ran through the M5X25 screw with he plastic washer – then screw it in its previous position but do not tighten yet. Do the same on the lower part of the plate.

5

Once you have placed all the screws then you may tighten them.

Follow the same instructions to place it on the other side as well.

The end result should appear as in the photo.

Thank you for choosing one of our products.

You may watch the installation video at the following link: <https://youtu.be/pAYhCkkREuA>

The product is for race use only
