The layout of the screws should be as in the photo on the left.
Two extenders with plastic screws – one on top and one on the bottom.

3
&
4

Undo the side screws of the headlight.

On the inner side of the headlight, remove the thread that's holdin it in place. You can do it by using the old screw to pull it out.

5
&
6

Put on the new adaptors in place of the old ones.

Place the headlight in position and put the small adaptors on both outer sides of the headlight –you will need to hold it in place with your hand until you put on the grill as well.

7

Place the grill and slide through the new screws with the washers – you should adjust the grill's position before tightening all the screws. You may undo the plastic screws if you wish so that they almost fall on the perimeter of the headlight.

The end result should appear as in the photo above. Thank you for choosing one of our products. You may watch the installation video at the following link: <https://youtu.be/k1tVLI7nMAK>
