2

Undo and remove the old side cover.

The new cover will be placed at the plastic base plate which is now visible.

3

Use the two M5X15 screws at the front as shown in the photo.  
Do not tighten the screws yet, just hold in place.  
Use the plastic washers if you have painted the cover to prevent any scratching.

4

Grab the adaptor as shown in the photo and using your other hand place the screw on the allen.  
Slide the adaptor behind the plastic cover and hold it in place so that you can screw it.  
Do not tighten the screw yet, just make sure it holds it in place.

5

Do the same with the other screw and then tighten all of them.  
Repeat the same procedure on the other side of the bike as well.

The end result should appear as in the photo.
